For the future publication of ESRI books, commercial requests from other entities, etc.

Parental permission was introduced from the actual competition (2011), revised and approved by ESRI legal representative (lawyer). This permission is the condition for the publication of the drawing in future books.

**Question:**

Where / how should the original permissions be stored? Together with the original drawings?

To avoid any kind of future problem (e.g. loss of the original) we should consider to ask all the national organizers to make a scanned version. These files should be sent to the international coordinator and the original permissions stored by the national organizer.
NEW THEME OF THE COMPETITION

The Commission Chairperson will ask members to send their proposals about the new theme for the competition for the next period (2013 and 2015).

PAPER SIZE:

At present: The maximum size of a map must not exceed A3 (420 mm x 297 mm or 17 x 11 inches).

Santiago 2009: Marcello Martinelli (Brazil) proposed to use only a standard format for all the drawings and this format can be the A3. This proposal was positively received by the participants.

Our proposal: If other Com. Members and National organizers also agreed to this idea, we can introduce it for the next four years cycle (2013-2015).
VOTING SLIP TEMPLATE

Following decision taken in the Com. Meeting, Commission Co-Chairs designed a template to vote the public award during the Exhibition and it was sent to the French local organizers.

Delegate's data:
Registration number: ____________________  Country: ________________________________

Selected map:
Code: _________________________________  Title: _________________________________
Author(s): ____________________________  Country: ________________________________

Note: Delegates can vote for only one drawing not submitted from their own countries

THANK YOU VERY MUCH FOR YOUR VOTE!!!
ICA JUDGING COMMISSION

- PUBLIC VOTE IN THE BARBARA PETCHENIK EXHIBITION

- Proposal sent by Francois Lecordix (France):
Each delegate could give two votes:
- One for his/her own country
- One for another country

Two possibilities to give the public award:
- Two public awards? Host country award and international award?
- Only one public award combining the two votes with a specific mathematic formula?
NOMINATION OF JURY MEMBERS:

- Chairs of BPC Judging Commission:
  - Period 2005-2007: José Jesús Reyes Nunez (Hungary)
  - Period 2009-2011: Temenoujka Bandrova (Bulgaria)
  - Period 2013-2015: ?

Proposal of new Chair for the next two competitions, to be approved by ICA EC

- Members:
Inviting at least a representative from each /participating/ continent… and a representative involved in activities from other sister society (e.g. IGU)

Actual rules:

• Judging Commission is formed by eight (8) members (one Chair and seven members) selected from the Commission on Cartography and Children and organizers of national competitions. One or a maximum of two colleagues representing other international organizations related to children, education, cartography (e.g. IGU, UNICEF) can be also invited to be member of this commission.

• Members and the Chair of the Judging Commission will be proposed by the ICA Cartography and Children Commission and the final selection will be made by the ICA Executive.
EVALUATION OF DRAWINGS BY JURY MEMBERS:

Dariusz Dukaczewski (Poland) – Temenoujka Bandrova (Bulgaria)

If needed – a Jury member could nominate a max. of two drawings for a place in the different age groups (e.g. two first places in the first age group)

The final result (final number of winners) remains the same (3 places / age group + 1 public award)

Peter vander Krogt (The Netherlands)

This year – in one specific case: 7 authors for only one drawing

Proposal: max. 3 authors/submission (if they belong to different age groups, the submission will be included in the oldest child’s age group)
SPECIAL CASE: SUBMISSIONS FROM INTERNATIONAL AND FOREIGN SCHOOLS

Peter vander Krogt (The Netherlands)

Drawings from International/Foreign Schools – which country should it represent?

International School – e.g. son of the German ambassador in USA (Germany or USA?)

Foreign School – e.g. British School in The Netherlands (UK or The Netherlands?) Proposal: to consider determinant the school type/system, not the individual nationality of a child
JURY MEMBERS’ REMARKS ABOUT THE NEW RULES:

- **Winners by countries and continents**
  
  Only one winner by country! ➡ To recognize the major possible number of participating children and national organizers (This was the policy followed by the JC in ICC 2009)

- **Number of awards**
  
  Three awards in each age group (3x3=9) + one award of public vote (1) = 10 awards + X special mentions (decision to be taken by JC)

- **About the new points system**
  
  - Very good tool for a preliminary selection of finalist drawings
  - Good starting point for discussions
  - Final decision should be taken personally at ICC conference, having a chance to see personally the original entries and not only the scanned ones.
PROPOSAL RELATED TO PUBLIC AWARD:

_Jesús Reyes (Hungary)_

During ICC 2009 – a country can have only one winner in the three age groups and the public award

This limitation should be valid only for the nine (9) prizes in the three age groups, excluding the public award.

A country can win an award in one of the three age groups and can also win the public prize if obtains the major number of votes…
Proposal for terms of reference 2011-2015:

• disseminating the outcomes of research into map use by children and young people. *Deliverable: an enhanced set of online bibliography and web links on cartography and children*

• developing stronger links between the ICA and relevant international and regional organizations related to Cartography and Children. *Deliverable: following the contacts with the Commission for Geography Education of the International Geographical Union and other international/regional organizations.*

• stimulating a debate on the different aspects of cartography for children in interest of collecting and publishing (in digital or/and printed format) the research results. *Deliverable: representing the commission in events and publications related to this theme.*

• following the promotion of the use of digital cartography, web cartography and GIS in schools. *Deliverable: representing the commission in events and publications related to this theme.*

• providing consultative support to the ICA Executive in relation to the rules and judging of the Barbara Petchenik Children's World Map Competition. *Deliverable: appropriate support as required*
