

An example for a chapter of web cartography course

- My name is
Wolfgang MEISSNER
- My profession is
Engineer of Cartography
and Geographer in Dortmund,
Germany

The aims of the chapter and the demands of the user:

- Aims:
 - ★ equal opportunities for all cartographers in the different federal states
 - ★ an actual, practical training
- Demands:
 - ★ the instructor has to prepare the theoretical constituents for the student
 - ★ the student has to be able to read and carry out the exercises

Map design: Graphic design basics
