

## **Marion Werner**

Institute of Cartography  
Swiss Federal Institute of Technology  
ETH Hönggerberg  
CH-8093 Zurich

werner@karto.baug.ethz.ch

Marion Werner studied cartography at the university of applied sciences in Munich, Germany. Practical experiences, first in manual and later in digital cartography at different inland and oversea companies were part of the apprenticeship that finished with a diploma thesis covering: 'The Processing Chain for Derivation of Map Products from High Resolution Airborne InSAR Data Integrated in a GIS, Realised as a CBT-CD'. Additionally to the Dipl. Ing. (FH) in Cartography and Geo-media-engineering she holds a certificate in multimedia. After the studies in 2001 she worked in a multimedia company before she came to the Institute of Cartography at the Swiss Federal Institute of Technology (ETHZ) in Zurich. Marion Werner is working as a scientific collaborator for the GITTA project that is part of the Swiss Virtual Campus project. A great emphasis of her work lays on graphics, beneath cartographic content creation and implementation. Additionally she is involved into the support of cartography students at the Institute of Cartography.
