Hungarian media persons. This atlas is a combination of valuable mapping and picturesque elements containing 300 photos beside 176 map pages. Its rich content is based on more than 100 000 geographical names used on the maps. There are short summaries of each country, their flags and coat-of-arms.

- HU 2** Atlas, Other
World Atlas
Atlas (hard cover + envelope); 464; 24x33 cm; 1:2 000 000 — 1:20 000 000; 4 + 4;
Cartographia Ltd.;
ISBN 10: 963-352-360-5 CM,
ISBN 13: 978-963-352-360-5;
Price: 9500,- Ft; Budapest, 2006; Hungarian.

High quality publication of world mapping for high level studies. 146 pages detailed maps on countries covering the whole world. Coloured headlines for each continent making the atlas easy to use. Very detailed mapping of Hungary and the surrounding Carpathian Basin in the front part. Thematical maps and graphical illustrations on biosphere, the universe, geology, environment. There are short summaries of each country, their flags and coat-of-arms. Detailed and updated geographical data in charts. Its rich content is based on more than 100 000 geographical names used on the maps.

- HU 3** Book, Parks and Recreation
Gömör — Tornai-karszt, Cserehát
Book; 160; 15x21 cm; 1:40 000 — 1:60 000; 4 + 4; Cartographia Ltd.;
ISBN 10: 963-352-144-6 CM,
ISBN 13: 978-963-352-144-0; Price: 2650,- Ft;
Budapest, 2006; Hungarian.

This publication is a perfect guide to the unique limestone features of the UNESCO Natural World Heritage Site in Hungary. The covered area is one geographical unit situated between two countries: Hungary and Slovakia. It helps the orientation of the recommended routes for walkers and bicycle tours in the scenic karst area. Beside introducing the famous Baradla-dripstone caves, 105 Hungarian and Slovakian settlements, it offers accommodation possibilities and useful information. The maps were edited in AutoCad, and its hill-shading is made by self-developed software process.

ISBN 13: 978-963-352-141-9; Price: 2650,- Ft;
Budapest, 2006; Hungarian.

This publication covers the northeast region of Hungary, rich in cultural and historic monuments and a land of

International Cartographic Exhibition

characteristic volcanic hills. It helps the orientation of the recommended 11 routes for walkers and 4 routes for bicycle tours. It guides to 71 settlements' sights in the nearby, offers water sport and winter sport possibilities, along with useful practical information. The atlas contains short description of the part of the UNESCO Cultural World Heritage: the Wineyard of the Tokaj-Hegyalja Region (the south downhills). The maps were edited in AutoCad, and its plastical hill-shading is made by self-developed software process.

- HU 5** Parks and Recreation
Kőszegi-hegység
Paper map; 1; 44,6x67,5 cm (folded down 13,5x22,3 cm); 1:40 000; 4 + 4;
Cartographia Ltd;
ISBN 10: 963-353-131-4 CM,
ISBN 13: 978-963-353-131-0;
Price: 990,- Ft; Budapest, 2006; Hungarian.

This publication covers the northwest part as the „hidden gem” in Hungary, close to the Austrian border. This subalpin region is rich in natural sights and cultural monuments. Routes for walkers and for bicycle tours, bus stops, hostels, restaurants are marked on the map. The contour lines are by 10 ms.
The reverse side contains the city map of Kőszeg and the list + description of museums, museum villages in Vas County, illustrated by typical photos of ancient architecture and folk art.
The maps were edited in AutoCad, and its plastical hill-shading is made by self-developed software process. Geographical grid applied to GPS.

- HU 6** Parks and Recreation
Vértes
Paper map; 1; 66,9x94,5 cm (folded down 13,5x22,3 cm); 1:40 000; 4 + 4;
Cartographia Ltd.; Cartographia Ltd.;
ISBN 10: 963-353-120-9 CM,
ISBN 13: 978-963-353-120-4; Price: 990,- Ft; Budapest, 2006; Hungarian.

This publication is an up-to-date user-friendly compilation concerning the reverse side, working as a guide. It contains short description of settlements, important tourist sights. It offers routes for walkers, thematics for bicycle tours, also excursions for motorists. There is detailed introduction to the hill's wild life and vegetation, and a special guide to the typical mushrooms. One can find useful practical information, possibilities for spare time and leisure, sports, cultural programs of the region. The maps were edited in AutoCard, and its plastical hill-shading is made by self-developed software process. Geographical grid applied to GPS.

- HU 7** Other
Iran
Paper map; 1; 67x88 cm (folded down 11x 24,5 cm); 1:2 500 000; 4 + 1;
Cartographia Ltd;
ISBN 13: 978-963-352-903-4; Price: 1900,- Ft;
Budapest, 2007; English, German, French, Hungarian.

The brand-new and politically actual map contains administrative regions, motorways, main roads, oil pipe lines, ancient monuments, world heritage sites. The narrow informative coverpage shows presentation of scale, website, product benefits. With exact area of map + location on continent + related products on reverse side. The description of the name forms (Arabic and Persian) have been written due to the official BGN/PCGN romanization system, the country names appear also in English.

- HU 8** Other
Libya
Paper map; 1; 68x99 cm (folded down 11x24,5 cm); 1:2 000 000; 4 + 4;
Cartographia Ltd.;
ISBN 13: 978-963-352-492-3; Price: 1900,- Ft; Budapest, 2007; English, German, French, Hungarian.

The brand-new reworked map of this touristically open country is rich in relief mapping details like sand and stone deserts, salt lakes, oases. Comparing to the previous mapping it had been completed to the South. Now covers the whole country, even deep in the desert, due to the tourist interest in ancient ruins all around. The narrow informative coverpage shows presentation of scale, website, product benefits. With exact area of map + location on continent + related products on reverse side. The description of Arabic name forms have been written due to the official BGN/PCGN Romanization system, the country names appear also in English.

Beijing / Peking

Paper map; 1; 63x90 cm, folded down 10x21 cm;
1:28 000; 4+ 4;

Cartographia Ltd.;

ISBN 13: 978-963-352-804-4; Price: 1400,- Ft; Budapest, 2007; English, German, French, Hungarian

The brand-new map of Beijing city and its surroundings map has been prepared basically for the forthcoming events of the Olympic Games 2008. Comparing this map to the previous edition, the street network has been completed, the number of the facilities, sights, hotels, public transport increased. The special thematics, the list of Olympic venues and the map of the Olympic village is positioned on the reverse side. In addition, for those who intend to visit the world famous tourist sights in China, a Top Sights China map has been edited. This map is useful either for general tourism, or for the Olympic delegates.

HU 11 Atlas, Scientific

Hungarian Space-Atlas for Schools

Atlas; 18; 21x29,7; several; CMYK; Dr. Csató Éva tel: +36 1 460-4190, fax: +36 1 2525-8282, csato.eva@fomi.hu (author); Hungarian Space

Organization; Budapest, Hungary, 2007; Hungarian

Backed by the European Space Agency (ESA), the atlas was first published on the initiative of Geospace/Austria in 2006. The Hungarian version, a translation of the original German, serves as an experimental tool for teaching geography in secondary and higher education.

Map sheets of VINGIL (National vineyard register on GIL basis)

Colour print; 1; 90x120 cm; 1:10 000; CMYK; Institute for Geodesy, Cartography and Remote Sensing (FÖMI), VINGIL Group (Authors); FÖMI; Budapest, Hungary, 2007; Hungarian.

The establishment of VINGIL — according to the Act No. XVIII. of 2004 on Viticulture and Oenology is an obligation resulting from our EU membership, which serves the fulfillment of the CAP. It facilitates the discernment and decision-making of agricultural governance especially of the wine-viticulture opportunity for quality improvement of our obligatory statistical reports; firms the Wine Communities in the completion of their statutory tasks. It is a instrument of improvement in assurance of protecting designated origin, in action against adulteration of wine, in quality production and in market competitiveness.

According to the 3. Article of the 102/2004. (VI.3.) MoARD (Ministry of Agriculture and Rural Development) regulation, the VINGIL database includes layer of vineyards; uprooted vineyards; topographic layer; layer of the county's administrative boundaries; layer of administrative border of the vineyard community and layer of potential lands for vineyards.

Tokaj and Surroundings — CLC2000 map 1:100 000

Paper map; 1; 70x46 cm; 1:100 000; CMYK; Institute for Geodesy, Cartography and Remote Sensing (FÖMI), Mr. George Büttner project leader; FÖMI; Hungarian.

The objective of the European Environment Agency (EEA) is to provide policy Makers with timely and relevant environmental information. The CORINE Land Cover (CLC) database initiated by the Commission in 1985 should be maintained and regularly updated. The map displayed shows the area around the largest lake of Central Europe and classes the land area into 28 land cover categories. The map is based on a LANDSAT ETM-7 satellite imagery taken on 18 August 2000.

The EEA and the Joint Research Centre (JRC) launched the IMAGE2000 and CLC2000 Project, which includes the updating of the CLC database.

The satellite image 'snap shot' of Europe (IMAGE2000) is the principal material to undertake the updating of CLC database for the year 2000 (CLC2000) and to identify main LC changes occurring in Europe within the period 1990-2000. The project covers the area of 29 European countries with the total of 4.4 Mkm² with 25 ha spatial resolution. CLC-changes database has 5 ha spatial resolution. The dissemination and use of the I&CLC2000 products is defined in an Agreement between the EEA, the European Commission and the participating countries.

CLC2000 is available at <http://dataservice.eea.eu.int>.
