GLOBES AND ATLASES

HUN1 Geological Map (Atlas) of Hungary for Tourists

Number of sheets: 250

Size (mm): 200 x 310

Authors: Albert, G.; Gyarmati, P.; Kaiser, M.; Síkhegyi, F.

Publisher: Geologic Institute of Hungary

Date of edition: 01/01/2009

Languages: Hungarian, English

Published on the occasion of the Earth's year, the atlas presents 92 Hungarian geological sites with bilingual description, photos and a number of complementary pieces of information (geological age table, geological cyclopaedia, etc.). Orientation is assisted by the 1:200 000-scale geological map on the simplified road network basis similar to road atlases.

HUN2 Történelmi atlasz (Historical Atlas)

Number of sheets: 48

Size (mm): 210 x 300

Catalogue International Map Exhibition | ICC 2009

15th - 21st NOVEMBER | SANTIAGO 2009 | CHILE

Authors: Cartographia School Publishers Ltd., Hungary

Publisher: Cartographia School Publishers

Date of edition: 30/11/2008

Languages: Hungarian

A school aide for the grades 5-12 of Hungarian primary schools. Revised on the aspect of recent historic findings and complete with time ribbons and drawings of characteristic scenes like the flagship Santa Maria of Columbus (1492) or the sinking of Titanic (1912).

MAPS BASED ON SATELLITE IMAGES AND REMOTE SENSING

HUN3 Tokaj Wine Region - Potential Wine Growing Areas

Paper

Scale: 1: 60.000

Size (mm): 900 x 1.200

Authors: FÖMI Remote Sensing Centre, VINGIS, Molnár E., A.

Publisher: Institute of Geodesy (FÖMI)

Date of edition: 31/08/2009

Languages: Hungarian, English

The EU wine market reform requires that product specifications of the protected wines as well as demarcation of the wine growing area must be completed. In Hungary this process is carried out by FÖMI institute using its GIS called VINGIS. The map shows the first step of this programme starting with the Tokaj wine growing area.

MAPS FOR TOURISM, ORIENTEERING AND PARKS

HUN4 Hungary Road Map

Laminated Paper

Scale: 1:520.000

Size (mm): 1.010 x 470

Authors: Cartographia Ltd., Hungary

Publisher: Cartographia Ltd., Hungary

Date of edition: 05/01/2009

Languages: Hungarian, English

Durable, easy-to-handle waterproof map, with writable-erasable surface for itinerery planning. Novel plastic coverage allows long life without breaking at the folds. With index of localities.

HUN5 Red Sea

Paper

Scale: 1:2.000.000

Size (mm): 690 x 1.250

Authors: GiziMap, Hungary

Publisher: GiziMap, Hungary

Date of edition: 05/01/2009

Languages: English, German, French, Spanish

Hand map for businessmen and vacationers presenting in detail the territory of the Red Sea and adjoining territories with administrative divisions, communication (roads, airfields), elevation (contour colouring), as well as diving sites, famous shipwrecks, and various other touristic features.

ICC 2009 | Catalogue International Map Exhibition

HUN6 Saint Lucia

Paper

Scale: 1:50.000

Size (mm): 690 x 940

Authors: GiziMap, Hungary

Publisher: GiziMap, Hungary

Date of edition: 05/01/2009

Languages: English, German, French, Spanish

Tourist map for businessmen and travellers and for everyone who plans a vacation on this beautiful island, also called Helen of the West Indies. With roads, airfields and various touristic features, as well as with index of localities.

OTHERS

HUN7 España (reverse: Literatura Renacentista en Europa)

Plastic

Scale: 1:1.200.000

Size (mm): 1.600 x 1.200

Authors: Cartographia School Publishers Ltd., Hungary

Publisher: Cartographia School Publishers Ltd. Hungary

Date of edition: 01/04/2009

Languages: Spanish

Administrative and road map of Spain, with autonomous communities in different colours, as well as provinces shown. Reverse side: The Atlas of Literary History for Hungarian secondary school students was published in 2000. The present map is a Spanish translation of the map sheet "Renaissance Literature in Europe". The two-sided map is offered for the Spanish-language market.
