

Proposed Test Activity

Extract Map History

EXTRACT MAP HISTORY

1 - Upload a digitized historical map to the platform ([VIDEO LINK](#)) from the options available at Link.

2 - Map a few toponyms on the map you uploaded to the database ([VIDEO LINK](#)).

3 - After mapping the toponyms, go to the map search and analysis section, search for the toponyms, and generate reports ([VIDEO LINK](#)).

4 - Answer some questions about your experience with the application ([FORM LINK](#)).

P.S: Other information available at: <https://sites.google.com/view/extractmaphistoryen-us/home>

P.S 2: We also provide a list of maps that can be used for this activity ([LINK](#)), but you may also search for other maps online as long as they meet the requirements of being in .JPG or .PNG format and up to 1 million pixels.
